

EGE UNIVERSITY
ERASMUS+ LEARNING MOBILITY ACTIVITY
2024 PROJECT PERIOD APPLICATIONS

APPLICATION CALENDAR

Application Announcement	31.10.2025
Duration of the application announcement	31.10.2025 20.11.2025
Application Dates	20.11.2025 04.12.2025
Sending the acceptance letters of the students who meet the application requirements according to the selection criteria to the relevant Faculties/Institutes/Schools/Vocational Schools for academic eligibility check by the International Relations Coordinatorship Office	05.12.2025 09.12.2025
Notification of the approval of the academic eligibility of the acceptance letters to the International Relations Coordinator's Office	10.12.2025
Foreign Language Document(English)	Foreign Language Written Exam (English) (face-to-face) YDS (taken within the last 5 years), TOEFL IBT (taken within the last 2 years), YÖKDİL (taken within the last 5 years) and EGEPT Exam Result Certificate (University Foreign Language Exam) taken by the School of Foreign Languages for Erasmus+ mobility in 2025 for Erasmus K171 applications. *Preparatory exemption exam results are not valid.
Announcement of the Election Result List by UiK and simultaneous notification to the units with an official letter	10.12.2025
Election Results Appeal Period	11.12.2025 18.12.2025
Waiver Period	Autumn 01.08.2026 Spring 02.01.2026
Orientation (Information Meeting) by the International Relations Coordinator's Office	Orientation day and time will be announced on our web page.

ERASMUS+ K171 STUDENT LEARNING MOBILITY QUOTAS

The 2024 Project Period Erasmus+ Student Learning Mobility Quota Table approved by the Exchange Programs Commission of our university is given below.

2024 Project Period Erasmus+ K171 Student Learning Mobility Quotas	Undergraduate	master's degree	PhD
University of Moulay Ismail Faculty of Divinity	1		

If the number of applications to the Faculty / Institute / School / Vocational School is more than the number of quotas determined, students other than the noble students will be announced as RESERVE STUDENTS according to the success score ranking.

IMPORTANT NOTE: In the event that there are not as many students as the total number of announced quotas, the remaining quotas will not be allocated to the units with substitutes due to budget constraints.

WHO CAN APPLY FOR ERASMUS+ LEARNING MOBILITY?

MINIMUM REQUIREMENTS FOR APPLICATION

In order to participate in the activity, students must first meet the following minimum requirements:

1. The student is a full-time student enrolled in a higher education program at any of the formal education levels (first, second or third level) at the University. (Students studying in open education and similar (distance education) programs cannot benefit from the activity. Preparatory class students cannot benefit from Erasmus+ Learning mobility).

2. a) The cumulative academic grade point average of first-year students must be at least 2.20/4.00.
b) At least 2.20/4.00 associate degree graduation grade for students transferring from associate degree; 2-High school graduation grade for first year students must be at least 75/100.
c) The cumulative academic grade point average of second and third level students must be at least 2.50/4.00
3. If he/she has benefited from higher education mobility activities in 2014-2020 and/or 2021-2027 Erasmus+ periods within his/her current education level, the total duration with the new activity should not exceed 12 months.
4. A signed and sealed (pdf signature is not valid) acceptance letter must be received from the institution or organization to be interned until the deadline specified in the learning academic calendar.

IMPORTANT: The acceptance letter must be prepared on letterhead and approved by an authorized person with a wet signature and seal. It is sufficient to upload the PDF format to the system during the application; hand delivery of the wet-signed document will not be requested. In accordance with the regulations established by the National Agency, the minimum duration for an learning is set at two months. Therefore, at the time of application, the student must secure acceptance for an Erasmus learning that spans this minimum period, irrespective of whether the specific start and end dates of the Learning are delineated within the documentation. It should be briefly stated in which department the student will do the learning.

- Students who freeze their enrollment cannot apply for learning mobility during the period they freeze their enrollment. Learning mobility application can be made during the period of enrollment freeze.
- Having a disciplinary penalty or having lower grades does not prevent the student from benefiting from Erasmus+ learning mobility. However, if the student's student rights are reduced as a result of the disciplinary penalty, it will not be possible to apply to the program or benefit from mobility.

*First tier: Associate degree, bachelor's degree; second tier: master's degree; third tier: doctorate, medical residency

- Double major students can only apply for mobility from one major in the same application period.
- If the students who are studying at our university as YTB scholarship students apply for the Erasmus+ Learning Mobility program, their applications will be received; If they are entitled to benefit from the mobility, the relevant students will send their petition to erasmus@mail.ege.edu.tr that they know and accept that their YTB scholarship will be cut off.

The student's GPA must meet the minimum requirements at the application stage. The grade point average taken from E-Government determines the grade point average. Our students undertake that the information they select and create during the application is correct. It is the student's responsibility to check that the GPA in the education information section

specified in the system is the same as the GPA at Ege University. If there is a difference, it is the student's responsibility to contact the Graduate School/Faculty/School/Vocational School Student Affairs unit to have it corrected until the application period ends! When calculating the grade point average, the grade point average reflected in Ege University Student Information Management System (OBYS) as of the application deadline is taken as basis.

For students who apply for the first semester at the master's and doctoral levels and who do not yet have a transcript from the selected higher education institution, the graduation grade from the previous higher education level is used. Students who are in this situation and who did not graduate from Ege University at the previous level are required to upload their graduation transcripts from the university they graduated from to the system during the application. Similarly, for students who have transferred from another higher education institution through horizontal or vertical transfer and have not yet established a grade point average at the selected higher education institution, the grade point average on the last transcript from the higher education institution they came from is considered. For students who have started graduate education and have not yet established a GPA, the undergraduate graduation GPA will be taken into consideration, and the evaluation will be made on a 2.5/4.00 GPA.

Scope of Learning Mobility

Learning mobility includes teaching learnings of student teachers, research assistantships of students and relevant research activities of PhD candidates. The learning activity must be an integral part of the student's study program. Following a course at a higher education institution is not considered as an learning.

The duration of the activity is between 2 and 12 months for each level of education. In the learning activity to be carried out after graduation, the application must be made before the student graduates (while he/she is still an associate, undergraduate, or graduate student). Graduated or dismissed students cannot apply. Post-graduation learning mobility must be completed within 12 months from the date of graduation. The military service period of new graduates who are recruited to complete their military service within this period is added to the maximum period of 12 months. The total duration of the post-graduation learning and the mobility period realized by the student at the same level should not exceed 12 months.

The minimum duration for learning mobility is 2 full months and the maximum duration is 12 full months. However, the student can receive a grant for 2 months.

Students taking courses cannot carry out mobility during the period they are taking courses.

In case of a break in the activity due to force majeure, provided that the force majeure can be documented, the activities for which the minimum period cannot be completed are accepted and the grant is given for the duration of the stay. Before an event or situation is considered as force majeure, our University will contact the Turkish National Agency.

If students return before the minimum period is completed, except for force majeure, the activity is considered invalid and the grant is not paid.

2024 PROJECT PERIOD PARTICIPANT GRANTS

Country Groups	Country of Residence	Monthly Grant Learning (Euro)
Located in Regions 1 and 12 Not Program Related Third Country	Turkey	800

“Force majeure” means any exceptional circumstance or event beyond the control of the parties which prevents either party from fulfilling any of its contractual obligations and which is not due to the fault or negligence of the parties, their subcontractors, affiliates or third parties involved in the performance and which, despite all due care and diligence, is unavoidable and unforeseeable. Failure to provide a service, defects in equipment or materials or failure to make them available on time cannot be claimed as force majeure, unless they are directly caused by a force majeure and also by labor disputes, strikes or financial difficulties.

2024 PROJECT PERIOD TRAVEL GRANT

The travel grant amounts to be applied in learning mobility will be calculated by determining the km* between the starting point of the mobility and the place where the activity takes place by using the distance calculator provided by the European Commission. The grant equivalent of the resulting kilometers in the table below is the round-trip figure, which is not multiplied by two.

Travel Distance	Standard Travel Grant Amount (Euro)	Green Travel Grant Amount (Euro)
10 – 99 km	28	56
100 – 499 km	211	285
500 – 1999 km	309	417
2000 – 2999 km	395	535
3000-3999 km	580	785
4000-7999 km	1188	1188
8000 km ve üzeri	1735	1735

As a general rule, for distances under 500 km, participants are required to travel by low emission transportation vehicles.

APPLICATION FORM

Students who will apply for 2024 Project Period Erasmus+ Learning Mobility must access the advertisement named “Ege University 2024 Project Period Erasmus+ Learning Mobility” by logging in via e-government on the “turnaportal.ua.gov.tr” page. Students must upload digital copies of the required documents to the system until December 04, 2025. Documents will not be submitted to the International Relations Office or Department Coordinators by hand or via e-mail.

After the application period has expired, the acceptance letters of the students who have applied and met the application criteria (quota allocated to the unit they applied for and uploaded the appropriate acceptance letter) will be forwarded to the relevant Faculty/Institute/School/Vocational School coordinators by the International Relations Coordinatorship and an official approval letter will be requested from the Faculty/Institute/School/Vocational Schools regarding the academic compatibility of the content of the acceptance letters with the branch in which the student is studying.

DOCUMENTS TO BE UPLOADED TO THE SYSTEM IN THE APPLICATION

- 1- Letter of Acceptance / E-mail Printout of Acceptance for Mobility received from the institution to be interned: If the date range of the learning cannot be clearly specified by the counter institution due to the fact that the project period will end on 01.08.2027, a declaration of acceptance is mandatory for the student to benefit from the learning for a minimum period of 60 days. However, after the student is selected, a clear acceptance letter will be requested at the visa application stage. The activity can be carried out until August 01, 2027, the end date of the project.
- 2- Students' grade point averages will come automatically from E-government. Students will not upload transcripts separately. Our students undertake that the information they select and create during the application is correct. It is the student's responsibility to check that the GPA in the education information section selected in the system is the same as the GPA at Ege University and if there is a difference, it is the student's responsibility to contact the Graduate School / Faculty / School / Vocational School Student Affairs unit and have it corrected until the application period ends.
- 3- YDS (taken within the last 5 years), TOEFL IBT (taken within the last 2 years), YÖKDİL (taken within the last 5 years) and EGEPT Exam Result Certificate (University Foreign Language Exam) taken for Erasmus+ K171 student learning mobility in 2025 (if available). Only 1 language document should be uploaded to the system.

*Students who submit an equivalent foreign language certificate in the application cannot take the foreign language written exam.

**(TOEFL certificate that is not approved by the School of Foreign Languages will be invalid.)

*** Preparatory exemption exam results are not valid.

IMPORTANT NOTE: The passing grade for the foreign language written exam is 70 for undergraduate students and 75 for graduate students.

- 4- Doctor's report containing information about the disability and its level (not older than 3 months) or a photocopy of disability card, doctor's report for chronic diseases) (if any)
- 5- A copy of the passport if mobility will be benefited in the country of citizenship

FOREIGN LANGUAGE LEVEL ASSESSMENT

A face-to-face written exam will determine the foreign language level. The student must submit an equivalent language certificate or take the written exam to obtain a total success score.

Written Examination

In order to calculate the students' total success points, they must score 70 out of 100 or higher if they are undergraduate students and 75 out of 100 or higher if they are graduate students.

IMPORTANT NOTE: Equivalent language documents must meet the minimum scores. Students who upload equivalent documents are obliged to check their score equivalents from the equivalency table shared among the announcement annexes and upload equivalent documents that meet the minimum score requirement.

The validity periods of the exams accepted as equivalent by Ege University:

YDS: 5 years YÖKDİL: 5 years TOEFL IBT*: 2 years EGEPT (University Foreign Language Exam): 2025 EGEPT exam taken for Erasmus+ Learning Mobility is valid.

*(TOEFL certificate not approved by the School of Foreign Languages will be invalid)

** Preparatory exemption exam results are not valid.

Ege University Foreign Language Written Exam Equivalency Table is shared among the annexes of the announcement.

APPLICATION EVALUATION AND PLACEMENT PROCEDURES

Student evaluation and selection procedures are carried out according to the selection criteria determined by the National Agency.

As a result of the Eligibility Check, the evaluation of the students who are deemed eligible and who participate in the Foreign Language Written Examination (or who do not participate and submit an equivalent document) is carried out according to the following criteria.

Criterion	Weighted Points
Academic achievement level	50% (out of 100)
Language level (written exam result)	50% (out of 100)

Disabled students (provided that the disability is documented)	+10 points
Previously benefited under the same project type and at the same level (with or without grant)	-10 points
Participation in mobility in the country of citizenship	-10 points
2023 Failure to participate in the mobility without submitting a waiver notification in due time even though selected for mobility during the Project Period	-10 points
2023 For students selected for Mobility in the Project Period: Failure to attend the meetings/trainings organized by Ege University related to mobility without an excuse (applies if the student reapplies to Erasmus)	-5 points
2023 Project Period (Unexcused failure to take the language exam (applied if the student reapplies to Erasmus)	-5 points

* Since Ege University treats every student equally and requests the acceptance letter at the application stage, it is deemed to have applied the criterion of “submitting an learning acceptance letter at the time of application”.

No point deduction is applied if the activity cannot be realized due to accepted force majeure or if the activity is abandoned within the specified waiver period.

ELECTION RESULTS

The results list compiled at your university must be published on your website and shared simultaneously with our International Relations Coordination Office. Our spring semester runs from February 2, 2026, to June 21, 2026.

OBJECTION TO ELECTION RESULTS

The objection period to the election results was 11-18 December 2025. Students who object to the election results can apply to the International Relations Coordinator's Office with a petition stating the reason for the objection between the specified dates. After the objection period expires, the complaints will be evaluated, and the student will be informed via e-mail within 5 working days.

RELIEF

In case the selected students waive their right to benefit from mobility, the waiver period is determined as until 02/01/2026. Students who waive their rights will be able to apply to the Faculty / Institute / School / Vocational School coordinators on the specified dates with a

petition stating the reason for the waiver. If there are students who apply for **waiver outside** the waiver period, the same procedure will be carried out, but if the students apply in the same level in the following periods, 10 points will be deducted from the last success grade in the evaluation (except for the accepted force majeure reasons).

In place of the students who waive their rights within the announced deadlines, those who are ranked higher from the reserve list can benefit from mobility with grant. In the place of those who waive, the International Relations Coordinatorship will notify the substitute students that they can be withdrawn to the original list by contacting the substitute students starting from the one with the highest score according to their success point ranking; if the substitute student will benefit from mobility instead of the waiving student, the International Relations Coordinatorship will inform the unit to which the student is affiliated with an official letter.
